HIGHER QUOTATIONS ON RAILWAY SHARES WITH LIGHT SALES

Both Common and Preferred Railway Higher-Gas Stock Easier.

Business on the local exchange was rather light, interest being confined largely to the shares of the Washington Railway and Electric Company. The steady inflation of values continues. The advance is bringing out considerable stock, but not as much as a few resorions would, although it does not em to be on the program that there should be any reactions.

The preferred was given a little the larger share of attention. It moved up from 94° to 95. The common sold at

SHARP ADVANCES NOT MAINTAINED. MARKET ACTING MUCH AS ON TUESDAY.

NEW YORK, March 27.—The market acted much as it did yesterday. The opening was decidedly interesting, with every indication of strength and rapid advance in all of the old-time leaders. It was a broad opening and the pace was exceptionally fast.

This announcement may have had something to do with the display of weakness midway in the second hour, and it may not, the similarity between the action yesterday and again today having no especial reason except a possible rush of distribution. The short interest in Reading was pushed hard according to Street stories. After the shorts covered in the jumping rise the profit-taking of the followers of the day prevailed just midway in the second hour, with fractional recoveries in the last few minutes, but with an apparent abandonment of all life and interest where there had been wild activity.

The announcement was made that the Sicel Corporation has sold \$30,000,000 more bonds through J. P. Morgan & Co. Baron Rothschild has been in conference with Mr. Morgan and it is supposed that he has been a buyer of this new bond issue. The price of the

NEW YORK, March 27.-The market bonds on the open market did not go of Stanley Committee Hears Facts of Tube Combine's Organization.

"Morgan" finance in organizing the National Tube Company and raising prices was recounted today to the Stanlay Steel Investigating Committee of the House by Julian Kennedy, Pitts burgh millionaire structural engineer, known as the "Edison of Steel."

Kennedy said he was J. Pierpont Mor gan's agent in appraising the steel tube plants of the country. He said Morgan's reorganization obtained control of practically all tube plants and that prices on tubes were soon raised.

"Too high tariff resulted in demoralization of the steel tube industry," Kennedy told the committee. "The tariff on tubes was a 'Chinese wall' in protection of the industry, but the competition resulted in nobody making any

"Mr. Morgan had nearly all the tube business in the reorganized company," said Mr. Kennedy. "All but a few plants; I should say about 90 per cent of the total business was controlled.

Kennedy said twelve large plants were the nucleus of the National Tube Company, and that a number of smaller plants also were acquired.

When asked if he considered the "Tube trust" was economical in dismantling some of the plants after the combination, Kennedy declared the combine saved money.

Kennedy said overproduction and financial losses of independent tube manufacturers resulted from the Morgan amalgamation.

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exemp-frem taxation as personal property.
